

## WILO PUMP

Yonos MAXO 25/0.5-7

Yonos MAXO 25/0.5-10

### Product Number : HC1235

The high-efficiency pump Wilo-Yonos MAXO is the compact standard pump for commercial buildings with HVAC applications. Thanks to its basic settings and functions with three operating modes and the green button it is very easy to set up and easy to use. With the Wilo-Connect module the pump is expandable with further intelligent functions.

Yonos MAXO 25/0.5-7 + Temperature/Ball Valve Kit [HC9015]

|                         |                    |
|-------------------------|--------------------|
| Brand                   | Wilo               |
| Temperature Range       | -20 °C - 110 °C    |
| Overall Length          | 130 mm             |
| Pipe Connection         | G 1½"              |
| Max Flow                | 7.2 m³/h           |
| Head Pressure Range     | 0.5-7 [m of water] |
| Pump Speed              | Variable Speed     |
| Power Consumption Range | 5 W - 120W         |
| Voltage / Frequency     | 230 V / 50 Hz      |
| Weight [gross]          | 5.8 kg             |
| Warranty                | 2 years            |

Yonos MAXO 25/0.5-10 + Temperature/Ball Valve Kit [HC9020]

|                         |                     |
|-------------------------|---------------------|
| Brand                   | Wilo                |
| Temperature Range       | -20 °C - 110 °C     |
