

ACTUATOR MANIFOLD CONTROL

OEM Electrical actuator control

Product Number : HE4001-HE4006

OEM actuator is a thermoelectric actuator for opening and closing valves used in heating and cooling.

Control of circuit distributors allows for individual room temperature control and radiator control.

	230V 2W	230V 4W	24V 2W	24V 4W
Product Number	HE4001	HE4002	HE4005	HE4006
Wire	2	4	2	4
Volts	230	230	24	24
Operating power	1 Watt			
Actuating Force	100 N			
Stroke	4mm			
Storage temperature	-25 °C ~ 60 °C
